Timekeeper Mick Kilby Lewes Wanderers CC

Many thanks to Jim Hollands, and his merry band of men from Rye Wheelers, for promoting this year's reliability trail including Barry Goodsell and Steve Gooch on course controls, Rebecca Wilson serving refreshments, her parents Isla and Colin for such an excellent spread of tempting treats, and husband Nick, last seen up to his elbows in washing up. Also a special mention and thanks to ESCA's all round good egg, Rob Pelham who helped to arrange the event and assisted with the signing on process, and as always, Mick Kilby for timing the event.

Generally speaking you couldn't have wished for a better day for the Reliability Trial – unlike previous years, the weather was uncharacteristically good and there was a fine turnout of riders from all across the ESCA clubs. Unfortunately one rider, Eddie Bell of Eastbourne Rovers, was involved in a nasty accident out towards Vines Cross which resulted in a broken pelvis front and rear together with a broken collar bone. Eddie was taken to the Royal Sussex in Brighton for surgery and has now been transferred to the Eastbourne DGH where he is making good progress; and judging by all his facebook interactions, seems to be in good spirits. We wish him all the very best for a full and speedy recovery. Many thanks to all those who rallied round, including Rover Jack Priddle who contacted HQ and stayed with Eddie until the ambulance arrived, and the In-Gear guys who stopped to offer help and also Hastings riders Chris Parker and Steve Curtis who went out to retrieve his bike, which was relatively unscathed.

In a competition as close as it could get with 42 entries apiece for Lewes Wanderers and In-Gear Quickvit Trainsharp this was always going to be a keenly fought battle. At the end of the day it was too close to call so Mick Kilby has double checked his calculations, to be absolutely sure, and this year's eagerly awaited results are:

Club	Total entries	Did not start	Did not finish	Finished too early	Finished too late	Successful finishers
